

# Corona Effects

Corona is spreading all over the world,

It has killed many innocents.

It is humans who play with nature,

Destroy what comes in its way

But now nature is healing

And every creature needs to pay.

We are captured in a jail, Oh! I mean in our house.

But all other animals, birds are free, even a mouse

Masks, sanitizers and PPE's are in trend,

To wear them in this hot humid summer

no one could have imagined.

Doctors have become our lifeguards,

I pray to god to save them all.

Oh God! please cure this unbearable Corona pain,

So that we can live our life peacefully once again.
