

My QUARANTINE ACTIVITY

During these **QUARANTINE** period we are spending our time with our loved ones which I think is a great opportunity to work on things in which which we are weak.

So, like everyone I have also tried my best not to waste this great opportunity and I have learnt a new language which is **FRENCH** with the help of some zoom courses

I have made many paintings during this period of time some of these are Coffee painting, Unicorn painting, Sponge painting and many more.

unicorn painting

coffee painting

I have also learnt some Vedic maths tricks which can surely help me in maths.

And lastly I would like to say **THANKYOU** to our **TEACHER'S & COVID WARRIORS** who are tirelessly in this difficult situation.
