

## PRINCIPAL'S MESSAGE FOR WEBSITE- JULY 2021

**To end the old beginnings and to begin towards a new end is the very design of life....**

I am grateful to Sr. Jyoti and her team (Management) that worked efficiently and effectively to take the school to greater heights during the pandemic through all its unprecedented events and happenings. We live at a time balancing between the paradoxes of life and death. We run the race of life in laps only to discover that every finishing line seem to be the new starting line. In the rush of human life let us discover the essence of life which is humanity by living every moment purposefully and making it significant. In the game of life what we do for ourselves die with us but what we do for others will keep living as a legacy to be carried on. We remember the legendary lives of those who have gone before us and start on the positive note that a painting is made stroke by stroke, a building is built brick by brick and a human life is constructed choice by choice. All that matters is to be making progressive choices and contribute our best to add life to the years we live on this earth. Just as every blossom has a story to tell, let us hope to work together and make our contribution significant as life passes through our hands so quickly. I solicit the co-operation and support of all our stake holders in the field of education in shaping the young minds towards a purposeful life.

Coming back to this school after a short break of few years, I have observed tremendous improvement in the area of teaching learning processes and the giant strides taken by parents, teachers, students and all stake holders in the field. Every adversity presents with it something new and adventurous for us humans to learn from. The pandemic too has brought tremendous opportunities in the educational front. The hidden talents of teachers and students have been brought out and the timid and slow have found the opportunities presented as a welcome start. Opportunities knock at every door step. Those who are awake welcome it and others let it pass by unaware of its call.

Regarding the much-awaited CBSE results of classes X and XII is finding its way with various departments working on the final solution. Concerned parents and students will be informed of the final decisions as soon as it is available and made official by CBSE. While they are at it, I request all students of all classes and particularly the senior students to make a habit of learning continuously and take individual responsibility to give your best daily to all the subjects chosen by you irrespective of your liking the subjects or the teacher. **Continuous Comprehensive Evaluation** is carried out through-out the year in all classes. Therefore, participation in all class activities become a must for all students. You are observed and graded for your ability and willingness to contribute towards all that happens in the class. Regular attendance in class as well as activities is encouraged. Ultimately the choices you make and the actions you perform decide your final result. Regretting later and making excuses will have no effect at the end.

As the pandemic is taking its time to winding its way out, we take individual responsibility to fight it with a strong will and keep ourselves and our families safe until we come out victorious.

Wish you all the best and God's blessings to go with you for protection and care until we are able to meet in person.

**Sr. Regi Joseph**  
**Principal**
